COMPLETING SECTION 17D – AGREEMENT TERMS & CONDITIONS

The OSP Contract Officer (“CO”) will enter the following information into the OSP Proposal & Award Acceptance Workflow (“Proposal Workflow”).

1. Award References Export Control Regulations

   Identify whether the award references export control laws and regulations. If so, choose “Yes.” If not, choose “N/A.” If the CO has questions about the implications of any referenced export control laws and/or regulations, the CO should contact the Principal Investigator (“PI”), Office of the General Counsel (“OGC”) and Office of Institutional Compliance and Ethics (“OIC”) to determine how to proceed. Provide any additional information, such as page numbers to applicable information in the award, in the “Comments” field.

   References export control regulations (e.g., 22 CFR Part 120; 15 CFR Part 734; 10 CFR Parts 110 & 810)
   ☐ Yes ☐ N/A

   Comments:

2. Country of Origin Restrictions

   Identify whether the award restricts non-U.S. entity participation based on the country of origin. If not, choose “N/A.” If so, choose “Yes” and identify the affected country(ies) of origin in the “Comments” field. If the CO has questions about the implications of the restrictions (which could impact a “Fundamental Research” determination), the CO should contact the PI, OGC and OIC to determine how to proceed. Provide any additional information, such as page numbers to applicable information in the award, in the “Comments” field.

   Restricts non-U.S. entity participation based on country of origin?
   ☐ Yes ☐ N/A

   Comments:
3. **Non-U.S. Person Restrictions**

Identify whether the award restricts non-U.S. Persons’ access to project information. If not, choose “N/A.” If so, choose “Yes” and identify the affected country(ies) of origin in the “Comments” field. Also, see Section 9 of the Proposal Workflow to see if the PI has planned to share information with non-U.S. Persons. If the CO has questions about the implications of the restrictions in the award (which could impact a “Fundamental Research” determination), the CO should contact the PI, OGC and OIC to determine how to proceed. Provide any additional information, such as page numbers to applicable information in the award, in the “Comments” field.

Prohibits access by non-U.S. persons to project information?
- ☐ Yes
- ☐ N/A

Comments: 

4. **Restrictions on Proprietary and/or Confidential Information**

Identify whether the award places restrictions on proprietary information and/or confidential information. If not, choose “N/A.” If so, choose “Yes” and identify the affected information. If the CO has questions about the implications of the restrictions (which could impact a “Fundamental Research” determination), the CO should contact the PI, OGC and OIC to determine how to proceed. Provide any additional information, such as page numbers to applicable information in the award, in the “Comments” field.

Restricts the use of proprietary/confidential information?
- ☐ Yes
- ☐ N/A

Comments: 

5. **Restrictions on Results or Generated Information**

Identify whether the award allows the sponsor to claim the results of the award as proprietary and/or a trade secret. If not, choose “N/A.” If so, choose “Yes” and identify the affected information. If the CO has questions about the implications of the restrictions (which could impact a “Fundamental Research” determination), the CO should contact the PI, OGC and OIC to determine how to proceed. Provide any additional information, such as page numbers to applicable information in the award, in the “Comments” field.

Allows the Sponsor to claim resulting information as proprietary/trade secret?
- ☐ Yes
- ☐ N/A

6. **China Assurance Clause**

Identify whether the award contains a “China Assurance Clause” pursuant to Section 1340(a) of Public Law 112-10. If not, choose “N/A.” If so, choose “Yes” and upload a signed “PI NASA China Assurance Form” in Section 18, Additional Supporting Documents, of the Proposal Workflow. Pursuant to Public Law 112-10, NASA is restricted from using appropriated funds for any financial assistance award that will involve any collaboration with China or any Chinese-owned company at the prime recipient and all subrecipient levels. If the CO has questions about the implications this China Assurance Clause (which could impact a “Fundamental Research” determination), the CO should contact the PI, OGC and OIC to determine how to proceed. Provide any additional information, such as page numbers to applicable information in the award, in the “Comments” field.

**Comments:**

7. **Required Information Technology Protocols**

Identify whether the award requires Boise State to implement particular information technology protocols. If not, choose “N/A.” If so, choose “Yes” and coordinate with the PI, OGC and the Office of Information Technology (“OIT”) to determine how to proceed. This is very important because additional protocols may not be feasible and/or may create additional costs for Boise State. Provide any additional information, such as page numbers to applicable information in the award, in the “Comments” field.
