COMPLETING SECTION 7 – PROPRIETARY / CONFIDENTIAL INFORMATION

1. General Information

It is very important that you carefully consider the questions in this section, as they have significant financial and legal ramifications for Boise State, the Principal Investigator (“PI”) and all other personnel performing the award.

2. Does the proposal contain any information that should not be publicly disclosed (e.g., proprietary, confidential, export controlled)?

2.1. Identify whether the proposal contains any information that should not be publicly disclosed, such as proprietary information, confidential information and/or export controlled information.

2.2. If “Yes,” identify the page numbers where this information appears and check the appropriate box(es) describing whether the information in the proposal is potentially patentable, copyrightable and/or export controlled. Please note that you must clearly and conspicuously mark information in proposals that contain this information. If we fail to do this, we may lose intellectual property rights and negatively impact U.S. national and economic security.

3. Is there a possibility this project will develop intellectual property and/or export controlled technology?

3.1. Identity whether there is a reasonable possibility this project will develop intellectual property and/or export controlled technology.

3.2. If “Yes,” provide details in the “Please Explain” text box.
